StudyHive - a Learning Platform

Group Project

- **Led frontend:** dashboard design + **Flask/MySQL** backend integration
- Built a YouTube-style resource-sharing platform for students
- [GitHub](#)

3D Maze Escape Game

Group Project

- Built real-time 3D maze game from scratch (**PyOpenGL, GLUT, GLU**)
- Implemented **enemy AI, collision detection, camera systems, and timed gameplay**
- [GitHub](#)

eBird Bias Correction (GNN + XGBoost)

Solo Project

- Built ML pipeline correcting bias in citizen-collected bird data (**GNN + XGBoost**)
- Owned **preprocessing, modeling, evaluation, and documentation end-to-end**
